AIR-CHIEF

Mechanical Seat

Mechanical Suspension System:

- o Mountable in most off road vehicles, no air supply or electric connections required.
- o Suspension performance can be optimized to individual operators.
- o Standardized Rubber Bellow minimizes debris in the suspension environment.
- o Easy mounting.

Other Advantages are:

- o Compact System
- o The backrest can be adjusted
- o Foam in place, the upholstery has no seams, and hence the seat will not absorb water. Once the seat cushion is whipped dry, it will be dry to sit on.
- o Easy Mounting.
